Profile Summary

o Experienced **Full Stack Developer** with proficiency in HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, and Mongoose.
o Participated in hackathons and webathons, delivering successful projects like Netflix and Spotify clones, and contributing to a Twitter clone as **a full stack developer**.
o Skilled in both **frontend and backend** development, capable of tackling complex challenges with confidence.
o Strong communicator and team player, **adept at collaborating** with others to achieve shared goals.
o Thrives in environments that foster innovation, growth, and a **positive work culture**.
o Committed to **continuous learning** and improvement, dedicated to delivering excellence in every project or team endeavor.

Responsibilities:

o Led teams as a Full Stack Developer and Team Leader in webathons and SIH hackathons, ensuring effective collaboration and project success.
o Worked closely with team members to understand their strengths and preferences, assigning tasks accordingly to maximize productivity and engagement.
o Provided guidance and support to team members at every stage of the project, fostering a collaborative and supportive environment.
o Maintained comprehensive knowledge of project details, enabling confident and articulate presentations in competitions.
o Improved communication skills and expanded professional networks through leadership roles, facilitating meaningful connections and collaborations.

Achievements:

o Demonstrated exceptional leadership skills as a Full Stack Developer and Team Leader in various webathons and SIH hackathons.
o Leveraged leadership roles to establish meaningful connections with peers, mentors, and industry professionals, fostering collaborative opportunities and knowledge exchange.
o Elevated team performance and morale through proactive leadership, resulting in notable project outcomes and personal growth opportunities for team members.

Academic Projects

Netflix clone
Tools: HTML, CSS, JavaScript

Roles: Developed the frontend using HTML, CSS, and JavaScript to replicate the Netflix user interface.

Spotify clone
Tools: React, Node, Docker, Arduino Programming

o **Roles:** Employed HTML and CSS to create a visually appealing and intuitive user interface consistent with Spotify's aesthetic.
o Implemented interactive elements and audio playback functionality using JavaScript to mirror Spotify's music streaming experience.
